Table of Contents

1. Introduction.....	9
2. Literature Review.....	12
3. Data Resources.....	16
4. Part A: Analysis of the Macroeconomic and Geopolitical Environment...	18
i) The macroeconomic and geopolitical environment from 2008 to 2017.....	18
ii) The macroeconomic and geopolitical environment from 2018 to today.....	23
5. The USA – China bilateral affairs.....	25
6. Seaborne Trade.....	32
a) The trade of major Dry Bulk Commodities.....	32
b) The Manufactured Goods trade.....	36
7. The significance of the Seaborne Trade between China and USA.....	38
8. The Shipping Market Cycles.....	41
a) The shipping market during economic crisis 2008 – 2012.....	44
b) The shipping market in the Post Tariffs Period 2013 – 2017.....	46
c) The shipping market with Trump’s Tariffs 2018 – 2019.....	47
d) The Covid-19 disrupted shipping market 2020 – 2021.....	48
e) The shipping market 2022 – today.....	49
9. Part B: Quantitative Analysis.....	51
i) Datasets and Variables Analysis.....	51
a) Dependent Variables.....	51
World Seaborne Trade/World Seaborne Trade Dry/World Seaborne Trade Containers.....	51
b) Independent Variables.....	53
USA Exports to China and USA Imports from China.....	53
East West Container Trade.....	55
Chinese Iron Ore Imports.....	56
GDP USA/China.....	57

c) “Decoupling” Dummy Variable.....	58
ii) Descriptive Statistics and Correlation Matrix.....	58
iii) Hypothesis Testing for US Imports from China.....	63
iv) Seaborne Trade Volume Regression Analysis.....	65
v) Dry Bulk Commodities Trade.....	68
vi) Manufactured Goods Trade.....	72
10. Findings Discussion.....	75
11. Conclusions.....	76
12. Paper’s Limitations and Future Research.....	78
13. References.....	80
