THESIS PROJECT

Applications of Blockchain Technology in the European wine supply chain

ILIAS FOTOPOULOS

SUPERVISOR: DR. KOSTAS TZIOUMIS

ATHENS, MAY 2023

Contents

Abstract	4
1. Introduction	5
2. Wine Supply chain - Main actors	6
2.1. Grape growers	6
2.2. Wine producers	6
2.3. Bulk wine distributors	6
2.4. Transit cellars	6
2.5. Fillers/Packers	7
2.6. Finished goods distributors	7
2.7. Wholesalers	7
2.8. Retailers	7
2.9. Consumers	7
2.10. Other entities	7
3. The current status of the European wine industry	8
4. Literature review	13
4.1. Supply chain traceability	13
4.2. Supply chain transparency	13
4.3. Supply chain information sharing	13
4.4. What is Blockchain Technology	13
5. Perceived benefits of Blockchain technology adoption	16
5.1. Enhanced trust between actors and reduced power asymmetry through supply chain disintermediation and transparency	16
5.2. Provision of data regarding sustainable processes and operations	16
5.3. Increased efficiency and processing speed through task automation	16
5.4. Elimination of fraud and provision of transparent and authentic information to consumers	16
5.5. Provision of transparency and consumer safety in case of contamination	17
5.6. Opportunities for market data analysis	17
5.7. Opportunities for marketing and product differentiation	17
5.8. Perceived drivers of Blockchain technology adoption in the European wine industry	17
5.9. MyStory™	18
5.10. Placido Volpone case	19
6. Perceived barriers of Blockchain technology adoption	21
6.1. Regulatory framework	21

6.2.	Smart contracts' implications	21
6.3.	Traditional cryptocurrencies' volatility	21
6.4.	Set-up and training costs	22
6.5.	Need for facilitating conditions and supplementary technologies	22
6.6.	Lack of diffusion and business cases	23
6.7.	Privacy and information sharing	23
6.8.	Blockchain is not a panacea	23
7.	Research questions	25
8.	Methodology	27
8.1.	Research context	27
8.2.	Data collection	28
8.3.	Data analysis	28
9.	Findings	30
10.	Conclusions	35
11.	Limitations of this study and areas for future research	37
	References	38
	Literature references	38
	Websites used as sources	41
	Appendix	43
	Types of Blockchain	43
	Public blockchain	43
	Consortium / Private blockchain	43
